

PRIVACY POLICY

Armadillo: Game Counter

Last Updated: January 2026

1. Introduction

This Privacy Policy explains how Armadillo: Game Counter (the "App"), operated by Igor Wellington Da Silva trading as RogiSilva (ABN: 61 425 497 462), handles information when you use the App.

We are committed to protecting your privacy. This policy is designed to be clear and straightforward about what data exists and how it is managed.

2. Information We Collect

2.1 Information Stored Locally on Your Device

The App stores your preferences and settings directly on your device. This includes:

- Life counter values and game state
- Theme selections and colour preferences
- Starting value configurations
- Other user preferences and settings

This information never leaves your device and is not transmitted to us or any third party. If you uninstall the App, this data is deleted.

2.2 Crash and Performance Data

We use Firebase Crashlytics, a service provided by Google, to collect crash reports and performance data. This helps us identify and fix bugs to improve the App. When a crash occurs, the following information may be collected:

- Device model and manufacturer
- Operating system version
- App version
- Crash logs and stack traces
- Anonymous installation identifier

This data is anonymous and cannot be used to identify you personally. It is used solely to diagnose technical issues.

2.3 Purchase Information

If you make in-app purchases, these transactions are handled entirely by Google Play (on Android) or the Apple App Store (on iOS). We do not collect or store your payment information. Purchase records are managed by the respective platform, and their privacy policies apply:

- Google Play: <https://policies.google.com/privacy>
- Apple App Store: <https://www.apple.com/legal/privacy/>

3. How We Use Information

We use the limited information we collect for the following purposes:

- To provide and maintain the App's functionality
- To identify and fix crashes and bugs
- To improve the App's performance and reliability

We do not use your information for advertising, profiling, or any purpose other than those stated above.

4. Data Sharing

We do not sell, trade, or rent your personal information to third parties.

Crash and performance data is processed by Firebase Crashlytics (Google). This data is anonymous and used solely for technical diagnostics. Google's privacy policy governs their handling of this data.

We may disclose information if required by law or to protect our legal rights.

5. Data Retention

- Local data: Remains on your device until you clear the App's data or uninstall the App.
- Crash data: Retained by Firebase Crashlytics for up to 90 days, after which it is automatically deleted.

6. Children's Privacy

The App is designed to be suitable for general audiences, including families.

The App does not collect personal information from any user, regardless of age. There are no account systems, text input fields, or other mechanisms through which personal information could be submitted to us. The only data transmitted from the App is anonymous crash data, which contains no personal identifiers.

If you have any concerns about children's privacy related to the App, please contact us at the email address below.

7. Data Security

Your settings and preferences are stored locally on your device using Android's standard secure storage mechanisms. This data is accessible only to the App and is protected by your device's security features (screen lock, encryption, etc.).

Crash data transmitted to Firebase Crashlytics is encrypted in transit.

While we take reasonable measures to protect information, no method of electronic storage or transmission is 100% secure.

8. Your Rights

Under Australian Privacy Principles and applicable privacy laws, you have the right to:

- Access: Request information about what data we hold about you.

- Correction: Request correction of any inaccurate information.
- Deletion: Request deletion of your data.

For locally stored data, you can exercise these rights directly by clearing the App's data or uninstalling the App through your device settings.

For crash data, please contact us at the email address below and we will assist you in submitting a request to Firebase.

9. International Users

The App is operated from Australia. If you are accessing the App from outside Australia, please be aware that crash data may be processed in countries where Google operates data centres, which may have different privacy laws than your country of residence.

By using the App, you consent to the transfer and processing of data as described in this policy.

10. Changes to This Policy

We may update this Privacy Policy from time to time. If we make material changes, we will notify users through the App or by other appropriate means.

The "Last Updated" date at the top of this policy indicates when the most recent changes were made. We encourage you to review this policy periodically.

11. Contact Us

If you have any questions, concerns, or requests regarding this Privacy Policy or our data practices, please contact us at:

Email: info@rogisilva.com

Business Name: RogiSilva

ABN: 61 425 497 462

We will respond to your inquiry within a reasonable timeframe.
